

Required Project Information

Mojave Integrated Regional Water Management Plan

Forms

There are two available project forms for submitting a project –

1. A **short form** used for a conceptual project idea or a project not fully developed yet.
2. A **long form** used for a more defined project that has gone through stages of planning and design and is ready for construction or implementation.

Project proponents can fill out the appropriate form of their choice and must provide as much of the project information requested in the form as possible. The information will be reviewed by the Project Team using the screening process outlined during the June 6 meeting (see link below). Project proponents are expected to collect and assemble project-specific information for projects to be considered for inclusion in the Mojave Region IRWM Plan Update.

It is acceptable if not all of the blanks are filled in on either form but the proponent should try to complete as many as possible to allow the reviewers to make appropriate screening decisions in a timely manner.

Integration Highly Recommended

We highly recommend that those submitting new projects (or updating an existing IRWM Plan project) look for and review other projects in the Region to see if there are opportunities to team up and create an integrated and multipurpose project. Contact the Mojave website (www.mywaterplan.com) for help in finding other projects that may be complementary to or supportive of your project.

2013 IRWM Plan Update - Project Review Process

All projects to be included in the 2013 IRWM Plan Update will undergo review. The draft process for project review, and the draft scoring methodology to be used for all projects can be found in Meeting #3 (June 6, 2013) Handout 2 at www.mywaterplan.com/meetings.
